

THE 13TH ANNUAL

Genomics of Energy & Environment Meeting

HOSTED BY THE

U.S. Department of Energy Joint Genome Institute

MARCH 13–16, 2018

SPONSORSHIP PROSPECTUS

The 13th Annual Genomics of Energy & Environment Meeting, hosted by the Department of Energy Joint Genome Institute, is the premier meeting that brings together those from the scientific community who focus on environmental integrative genome science. We expect the event to draw some 650 participants from universities, companies, and national laboratories from around the world — high-profile researchers, educators, and students alike — pursuing frontier energy and environmental genomics research, technology development and education.

The formal meeting is preceded by workshops which take place on Tuesday, March 13 and Wednesday, March 14.

Parallel tracks and workshops include:

In parallel with the main Meeting, the JGI will host the first ever Viral EcoGenomics and Applications (VEGA) Symposium 2018. In addition, workshops focused on genomic technologies, genomics of microbes, metagenomes, fungi, and plants as well as the DOE Systems Knowledgebase (KBase) will precede the Symposium and plenary sessions.

The Meeting opening keynote address is at 5pm on Wednesday March 14, followed by the first poster session reception. The main sessions take place all day Thursday, March 15 through Friday, March 16.

Keynotes speakers:

- John Ioannidis, Stanford
- Victoria Orphan, Caltech
- Kristala Prather, MIT

For the first time ever, JGI will be coordinating an industry showcase — a series of industry short talks during the Friday luncheon, as well as a sponsor showcase — affording several opportunities for sponsors to engage productively with attendees.

Sponsorship Levels and Benefits

We are offering the opportunity to sponsor this meeting at a range of levels detailed below.

Kingdom-Level Sponsor: \$15,000 (1 available)

Your company will receive official recognition as primary sponsor and introduction/acknowledgment by the JGI Director during the plenary session with the following additional benefits:

- Your company logo will be featured prominently on a shirt or conference carrying bag custom-designed for the event.
- Your company will secure a prime location for table display at the sponsor showcase.
- Your company will have a short talk slot at the Friday Industry Showcase Luncheon.
- Your logo/company identity will be featured on the rotating slideshow between plenary sessions.
- Your company's marketing materials will be displayed prominently adjacent to the registration desk.
- Named poster award recognition (1 available @ \$500).
- Four conference registrations (\$3,200 value).

Phylum-Level Sponsor: \$10,000 (2 available)

- As a luncheon sponsor your company will receive an introduction by the JGI Director
- Your company will have a choice of location for table display space for the sponsor showcase.
- Your company will have a short talk slot at the Friday Industry Showcase Luncheon.
- Your logo/company identity will be featured on the rotating slideshow between plenary sessions.
- Your company's marketing materials will be displayed prominently adjacent to the registration desk.
- Named poster award recognition (2 available @ \$250 each).
- Two conference registrations (\$1,600 value).

Genus-Level Sponsor: \$5,000 (4 available)

- Your company will receive official recognition as break-hospitality sponsor (3 available) or Collaboration Hub Sponsor (1 available).
- Your company will be assigned a table display space for the sponsor showcase.
- Your company will have a short talk slot at the Friday Industry Showcase Luncheon.
- Your logo/company identity will be featured on the rotating slideshow between plenary sessions.
- Named poster award recognition (4 available @ \$100 per sponsor).
- One conference registration (\$800 value).

Species-Level Sponsor: \$1,500 (20 available)

- Your company may display a 2 x 3 foot poster at the sponsor showcase.
- One conference registration (\$800 value).

If these above options don't meet your particular needs, please let us know and we'd be happy to work with you to get the most out of the Genomics of Energy & Environment Meeting experience.
